Jakub Olszewski

A complex problem solver with ability to apply broad knowledge to various situations or domains. Currently chasing a backlog and looking for an environment willing to give me a chance to master any of the specialties close to me. INTP-A / 5w6.

EXPERIENCE

Freelance, Warsaw/Poland — *Freelancer*

January 2020 - August 2023

Time spent on solving health problems, side projects and finding my path on the pathless path. In the meantime I almost became a guitar teacher, started writing a Linux (more BSD, honestly) distribution for the purpose of future projects, almost finished writing a book and rubbed shoulders with the space sector.

Nextbike Polska, Warsaw/Poland — *Webmaster*

February 2019 - November 2019

Together with Digital Manager, we were responsible for the online presence, resolving SM inquiries with a reach of about 1 million and handling approx. 40 websites. Most of the time was spent putting out fires and minimizing risks on the European-scale project at risk.

Nextbike Polska, Warsaw/Poland — *IT Specialist*

June 2018 - January 2019

Analyzed public tenders, was the access guy, handled some of these stuff happens moments or DNS magic around the clock, coordinated the launch of the next-generation system in the first production environment, took an active role in it's R&D, introduced Kanban, did some front-end development and test case writing.

Screen Network, Warsaw/Poland — *Campaign Implementer*

December 2017 - March 2018

Implemented into the production environment DOOH campaigns using AI, big data, image recognition technologies, looked for methods to implement campaigns with Lua, supported the sales department.

Screen Network, Warsaw/Poland — *TechOps Specialist*

August 2016 - November 2017

First and second-line support responsibilities, approx. 700 hosts. Reacted to WannaCry before we knew we were vulnerable, stopped securing hosts to the level of cutting off access to myself, was the one the sales department wanted to talk to, automated some work with AHK and PowerShell.

SKILLS

· Superior **Multivariate Analysis**
· Deep **Linux** (Userspace; TTY, runit/systemd, vi, etc.)
· Deep **Scripting** (POSIX, Dash, Bash, Fish, Lua, PowerShell, AHK, etc.)
· Deep **Docs** (Markdown mostly. I'm a good writer overall.)
· **GIT** (GitHub, GitLab, *Fossil*.)
· **Networking** & **Security** (VPN, Firewalls, DNS, OSI model, IP, etc.)
· **Virtualisation** (VMware, VirtualBox)
· **Tracking** (Jira, Redmine.)
· Some **Front-End** (HTML5, CSS3 with preprocessors, basic JS, WordPress, JAMstack.)
· A bit of **UI/UX** (Concepts, prototyping, Adobe XD.)
· A bit of **Raster Graphics** (Adobe CC Photoshop, mostly.)
· A bit of **Embedded** (basic C, electronic diagrams.)
· Currently learning **DevOps** related (CI/CD, Python, Docker, Ansible, Terraform, NGINX, etc.)
· B driver's license, MS Office, Slack

EDUCATION

ZST Suwałki — *Electronics Technician*

September 2012 - June 2016

Qualification E.06: Electronic devices installation.

LANGUAGES

Polish, English.

HOBBIES

Cybernetics, writing, bass.
